

UNESCO CHAIR

Societal Climate Change Research and Resilience

Connecting Living Places Through Travelling Ideas

OUR MISSION

We connect islands and coastal communities worldwide to promote, share and apply knowledge and action for climate resilience. Rooted in local realities. Connected globally, driving positive change together.

-  People & Communities
-  From Knowledge to Action
-  Climate Resilience
-  Dialogue & Co-creation
-  Global Partnerships

UNESCO MISSION

The core mission is to build peace and foster sustainable development through

- North-North,
- North-South,
- South-South

cooperation in education, the sciences, culture, and communication.

OUR APPROACH

LIVING PLACES

Living Places are communities where climate change is experienced, understood and acted on together. Through dialogue, collaboration and knowledge exchange, they become hubs of resilience and inspiration.

*Ideas travel.
Resilience grows.*

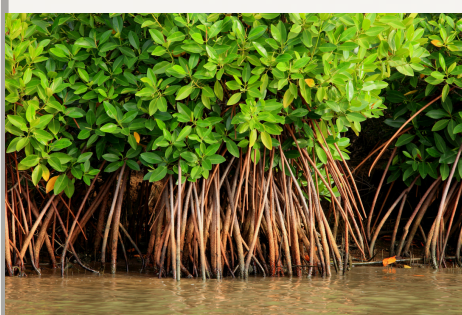

A GROWING GLOBAL NETWORK

We are always welcoming new Living Places and partners to join our journey.

Let's connect!

TRAVELLING IDEAS IN ACTION

Local ideas with global potential

 Mangrove Restoration  Shields from Roots  Seychelles 	 Climate Experience Walks  Initiating climate-adapted actions  Norderney 	 Eco-schools  From classroom to climate action  Seychelles 	 Knitting Connections  Strengthening Community Resilience  Prince Edward Island 	 Beach Cleaning Party  Clean, Connect, Celebrate  Skyros 	 Climate Change Champions  Rallying for Success  Tobago
